RE: DA2025/0951 - 725 Pittwater Road DEE WHY NSW 2099

This seems like a grab for more advertising revenue for very little justifucation. Is it really necessary to have an illuminated, scrolling advert 24 hours a day, 7 days a week. Already there is enough light and noise on Pittwater Rd, there is no need for more, nor do we need more advertising on public stuctures.
Bus stop E6 (outside 1251 Pittwater Rd, which is the bus stop mentioned in the DA 2025/0951 notice I received, is already neglected. The gutters are currently full of dirt and have plants growing out of them.
Northern Beaches council have just significantly increased rates, maybe you should consider taking back control of the bus stops and using the rates for some maintainence.
