DESIGN PRACTICE

1801 A8101 House 8 Plans Current.vwx

Tuesday, 27 November 2018

Informal native planting between lots to create separation. Lower plants towards the waters edge to retain foreshore views.

Existing sea wall retained.

Managed lawn at existing ground levels.

Shade tolerant planting in undercroft areas.

Informal small screening trees along boundary to screen development from neighbouring properties.

Stormwater spreaders and irrigation to undercroft areas

Dwelling footprints represent a hybrid of ground floor and first floor footprints that impact the landscape. Dashed lines indicate building/deck/eave over.

Informal screening trees and shrubs along boundary to create privacy between lots and add to the landscape amenity

Informal garden path under 1m wide, installed entirely at existing ground level. Gravel surface with solid sandstone steps as required to site conditions. No excavation.

Extensive shade tolerant planting in undercroft areas

No changes to ground levels outside of house and driveway footprints.

Native screen planting between lots for privacy and to add to the landscape amenity

Green roofs above dwellings planted with native grass species. Species are included within the adjacent plant list

Driveways and turning areas to Architect's details.

Replacement tree planting of indigenous trees.
