MR Peter Davies  
12 / 69 Evans ST  
Freshwater NSW 2096

**RE: Mod2017/0063 - 80 Evans Street FRESHWATER NSW 2096**

The mere fact that this application has been resubmitted highlights the contempt Ganellen holds for both the local community and more importantly the council. The council is no doubt aware the Ganellen has NEVER ADHERED to the existing hour restrictions that are currently in place including the now regular starts on Saturday at 6.15am (with an unbelievable amount of noise). I simply don't understand why we have to be the bad guys calling the ranger all the time. Pick any day you wish and you will find them in breach of council regulations - they clearly believe council has no power (teeth/will) to act on this.

This issue is about community and peoples lives. We all understand that things get built but presumably the hours that are set are created out of respect for all stakeholders. Ganellen is probably whinging that the weather has played havoc with their schedule but that is a commercial mishap that should not be borne by the broader community . It is effectively asking the community to be equity participants in the project but with no return. This is clearly unfair.

In as unemotional state as I can be it cannot be overstated how disruptive this project has been. Why has there been work going on at 10.30pm. Why has Ganellen not followed through with their offer to clean the units of the layers and layers of concrete dust that has invaded our living spaces. Why did Ganellen do nothing to mitigate this dust spreading. Why are there lights blazing from their work site into our bedrooms each night?

Ganellen has been a poor corporate citizen the whole way through and to iterate has clearly held no fear of council reprisal . I implore you to act in the interests of the human beings here over the corporate bullies and not only reject this outrageous proposal but also hold Ganellen to account for the daily breaches of the existing conditions and make sure they are strictly adhered to. Thank you.
