**RE: DA2024/1216 - Gourlay Avenue BALGOWLAH NSW 2093**

I object most strongly to this proposed development. The detrimental effect it will have on the surrounding above water area pales to the destructive influence this proposed jetty will have on the precious and very diverse marine life this small bay supports. From the shallow sea grass to the deeper sand rocks and permanent mooring blocks there is a rich population of life rarely found so close to human habitation. To destroy this marine sanctuary in the name of progress would be a crime against nature and the well being of every living creature who relies on this bay for survive. I strongly object to this destructive construction being forced upon the life both above water and below.  
Yours sincerely, Valerie Taylor AM
