The diagram illustrates a window element within a structural frame. The structural opening is a square with dimensions of 1200 mm by 1200 mm, indicated by dashed lines and dimension lines. The window element itself is a rectangle with a height of 300 mm, shown by a solid line and dimension line. The window is divided into two equal parts, each labeled 'EQ'. The structural opening is defined by four circular symbols at the corners, representing reinforcement or fasteners. The window element is shown with a double-line border, and the two 'EQ' labels are positioned below the window frame.
