Subject: Attention DA 1808 Pittwater rd Bayview

Hello ,

1808 Pittwater rd Bayview is being redeveloped.
There is a small road/path down to Riddle reserve BYRA Bayview .

I can only imagine this DA is going to cause problems for pedestrians for the duration of the construction due to the limited access for the build and deliveries as any development on that stretch has always been a nuisance for walkers and runners due to it being the only path on Pittwater rd at that point .

Wondering could a temporary access be cleared down to the end of the path from the top road side for walkers as otherwise there will be too much stopping of foot traffic in this very difficult location .

Just clearing some roads vegetation on the high side to get past this temporarily would be good if possible.

Regards

Nicole Gastrell
Bayview .
