Size & scale of building is not in keeping with the area.

It's too big & concretey & ugly.

Maybe a lighter structure, pavilion style; colorbond roof not a concrete ugly Block of units. Exterior Materials should be a mixture of painted timber cladding & sandstone. Something more of a Port Douglas style would be nicer.

Townhouses or villas with gardens & palm trees are much nicer than units.

We have to live with these structures forever. They've got to be visually & aesthetically appealing to the eye & the environment & be a thing of beauty to behold.

Sorry but This design is totally wrong.
