**RE: DA2023/0868 - 39 Hay Street COLLAROY NSW 2097**

I live in Collaroy and have done for several years. Collaroy is a suburban area with generally free standing family homes. I would like to lodge my protest re the high density apartments which I understand are part of this application as they would not be in keeping with the suburb and would be close to my home. My protest comes regarding the pressure on existing amenities, the possibility of increased congestion and also the value that we place on our existing community living both in terms of the value of our properties and the community in which we live.
