**RE: DA2024/1091 - 5 / 1 Careel Head Road AVALON BEACH NSW 2107**

I as a long-term resident of Burrawong road strongly object to the proposed traffic changes put forward in the development. We are already impacted with the buses that use the street to head back south along the main road. All traffic entering the development should use the main road and not be channeled down a quite residential street. I am worried about the number of young children that live and play in the street. The fact that if approved other traffic management solutions maybe implemented (speed humps).Our street has nothing to do with the development and should not be affected by their traffic management. Regards Daniel Elliott.
