RE: DA2025/0077 - 28 Lawrence Street FRESHWATER NSW 2096

I object to the height proposed in this DA, it needs to be no higher than 3 storey to align with the existing height requirements. Freshwater needs to keep it's village community vibe and adding an additional 30 units will impact the parking and traffic adding further congestion. Please may I ask the assessing officer to review the plans with our small village community in mind.
