

Natural Environment Referral Response - Biodiversity

Application Number:	DA2025/0764
Proposed Development:	Alterations and additions to Long Reef Golf Club clubhouse
Date:	22/07/2025
Responsible Officer	Claire Ryan
Land to be developed (Address):	Lot 1 DP 1144187 , 2 Anzac Avenue COLLAROY NSW 2097 Lot 1 DP 1144187 , Anzac Avenue COLLAROY NSW 2097

Reasons for referral

This application seeks consent development on land, or within 40m of land, containing:

- All Development Applications on
- Actual or potential threatened species, populations, ecological communities, or their habitats;
- Wildlife corridors;
- Vegetation query stipulating that a Flora and Fauna Assessment is required;
- Vegetation query - X type located in both A & C Wards;

And as such, Council's Natural Environment Unit officers are required to consider the likely potential environmental impacts.

Officer comments

The comments in this referral relate to the following applicable controls:

- Warringah DCP - Clause E2 Prescribed Vegetation
- Warringah DCP - Clause E3 Threatened species, populations, ecological communities listed under State or Commonwealth legislation, or High Conservation Habitat
- Warringah DCP - Clause E4 Wildlife Corridors
- Warringah DCP - Clause E5 Native Vegetation
- Warringah DCP - Clause E6 Retaining unique environmental features

The proposal has been submitted with an arboricultural impact assessment that has recommended the removal of trees 3, 4, 10, 11, 12 and 13. All trees are considered exempt under current regulations as they are either exempt by species (3 and 4) or by height (10, 11, 12 and 13). An inspection has been conducted by Council's Biodiversity Officer and it can be confirmed that trees 10-13 are not being used as habitat. Trees 3 and 4 could likely be used as habitat and conditions are recommended for their removal.

A landscape plan has been submitted with the application and includes a number of trees to replace the trees proposed for removal. Conditions will be recommended to ensure that no weeds are imported on site and are managed as part of the consent if the application is approved in its current form.

It is unlikely that the proposal would significantly impact native flora and fauna.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.

Recommended Natural Environment Conditions:**CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF THE CONSTRUCTION
CERTIFICATE****No Clearing of Vegetation**

Unless otherwise exempt, no vegetation is to be cleared prior to issue of a Construction Certificate.

Details demonstrating compliance are to be submitted to the Certifier prior to issue of Construction Certificate.

Reason: To protect native vegetation.

CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK**Pre-clearance Survey**

Any habitat for native wildlife (including tree hollows) approved for removal is to be inspected for native wildlife prior to its removal. If native wildlife is found within habitat to be removed, a licensed wildlife rescue and rehabilitation organisation must be contacted for advice.

Any incidents in which native wildlife are injured or killed as a result of works are to be recorded, in addition to details of any action taken in response.

Written evidence of compliance (including records of inspections and any wildlife incidents) is to be provided to the Principal Certifier prior to any Occupation Certificate.

Reason: To protect native wildlife.

Wildlife Protection

If construction activity associated with this development results in injury or displacement of a native mammal, bird, reptile or amphibian, a licensed wildlife rescue and rehabilitation organisation must be contacted for advice.

Reason: To protect native wildlife.

Protection of Habitat Features

All natural landscape features, including any rock outcrops, native vegetation and/or watercourses, are to remain undisturbed during the construction works, except where affected by necessary works detailed on approved plans.

Reason: To protect wildlife habitat.

**CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF THE
OCCUPATION CERTIFICATE****Native Landscaping**

Any new landscaping is to incorporate a minimum 80% locally native vegetation species as a proportion of the total number of plants. Locally native species are to be consistent with the relevant section of the Native Planting Guide available on Council's website.

Details demonstrating compliance are to be provided to the Principal Certifier prior to issue of any Occupation Certificate.

Reason: To ensure compliance with the requirement to retain and protect native planting on the site.

No Weeds Imported On To The Site

No Priority or environmental weeds (as specified in the Northern Beaches Local Weed Management Plan) are to be imported on to the site prior to or during construction works.

Details demonstrating compliance are to be submitted to the Principal Certifier prior to issue of any Occupation Certificate.

Reason: To reduce the risk of site works contributing to spread of Priority and environmental weeds.

Priority Weed Removal and Management

All Priority weeds (as specified in the Northern Beaches Local Weed Management Plan) within the development footprint are to be removed using an appropriate control method.

Details demonstrating compliance are to be submitted to the Principal Certifier prior to issue of any Occupation Certificate.

Reason: To reduce the risk of site works contributing to spread of Priority weeds.

ON-GOING CONDITIONS THAT MUST BE COMPLIED WITH AT ALL TIMES

Control of Domestic Dogs/Cats

Domestic dogs and cats are to be kept from entering wildlife habitat areas at all times.

Dogs and cats are to be kept in an enclosed area and/or inside the dwelling, or on a leash such that they cannot enter areas of wildlife habitat, bushland or foreshore unrestrained, on the site or on surrounding properties or reserves.

Reason: To protect native wildlife and habitat.
