# SHADOW DIAGRAM STATEMENT

## Re: PROPOSED ADDITIONS TO 1 BAKERS ROAD, CHURCH POINT

The proposed minor works at the above address include:

- new single level storage room on the south east side
  - any shadow created by this store room will be within the shadow of the higher roof behind
- a new lift on the south west side
  - the lift shaft cannot be seen from the street and any shadow from this shaft will be within the shadow of the higher roof in front

For the above reasons, shadow diagrams have not been prepared for this situation.
