RE: Mod2019/0173 - 7 Pavilion Street QUEENSCLIFF NSW 2096

It is with disappointment that we the owners of 1/4 Pavilion St Queenscliff have received this Development Application. The home that is proposing a redevelopment is already a very large two story dwelling which commands uninterrupted ocean views. By developing the property further the height of the roof increases to such an extent that the small water views we have from our unit become virtually non-existent. This increase in roof line not only affects us but other properties as well in Pavilion St. It would be of benefit if the council would come out to the site and see for themselves the extent to which the views have decreased for the properties in the street.
