RE: Mod2025/0228 - 28 Lockwood Avenue BELROSE NSW 2085

Hi there,
I'm saddened to hear the developers have applied to add another storey
To the already approved unit block near Glenrose shops.
I feel this is deceitful as the initial Application had this rejected for numerous reasons and 2
levels were approved. There was alot of feedback from the community as to why only 2 levels
should be built. So please consider why they are applying again. Did they have this in mind
when they started building. It's is already a very busy high traffic area with the shopping
centre, library and gym nearby.2 levels are sufficient to maintain an adequate levels of traffic
without impacting the community.
