**RE: DA2025/0725 - 380 Pittwater Road NORTH MANLY NSW 2100**

This is a well-considered project that will bring new life to the area, support local jobs, and offer a unique, community-focused venue. With its modest scale, limited patron numbers, and clear plans to manage noise, traffic, and responsible service, it reflects a thoughtful approach to balancing business activity with local amenity.

Small, independent ventures like this help build strong neighbourhoods and contribute to the local economy in meaningful ways. I believe this brewery will be a positive and welcome addition to North Manly and encourage Council to support the application.
