A large black rectangular redaction box covering several lines of text in the email body.

RE: DA2025/1058 - 34 Tatiara Crescent NORTH NARRABEEN NSW 2101

I note what appears to be a wood burning fireplace with an underheight chimney in several drawings. It does not appear to be labelled in the drawings or the statement of effects report. Living next door to a house constantly burning wood has huge health and social impacts. I ask that council seek clarification on the inclusion of a fireplace and assess the impact on neighbouring properties.
