To the Council

Re; DA2021/1164 for 521 Barrenjoey Rd.

Having read how a person who is planning on moving to Avalon/Bilgola claiming he wants to make this his permanent residence and only !% of locals have objected to his development has prompted me to send this email I have no objection to this person building a house but the proposal seems inappropriate for the location,

Apart from environmental damage to the bushland and native animal habitat the effect on the only direct road into Avalon/Palm Beach will not be pleasant and as we all know kamakazi roundabout has a record of accidents and the proposed driveway is very close and on a blind corner.

I hope the council gives careful consideration to this proposal and the flow on effect.

Dennis Wright
