RE: Mod2025/0228 - 28 Lockwood Avenue BELROSE NSW 2085

Already at the maximum for high density in the area, stop just adding building and modifications for more housing without the appropriate infrastructure that is needed, northern beaches roads are at a gridlock with the population we currently have not to mention the issue with potholes and flooding as a result of refusing to invest money to have these issues fixed. I strongly oppose continuing to build these high density blocks of apartments due to the ongoing issues we are facing,
