**RE: Mod2022/0007 - 1031 Barrenjoey Road PALM BEACH NSW 2108**

Dear Nick, as the immediate neighbor to this property, I strongly object to the amended DA. The acoustic screen must be located on the north side of the proposed garden bed and not on the southern side, otherwise it would mean such screen would be built directly against our fence. The illegal awning over this garden bed must also be removed, as it does not comply with council regulations, as such the awning must be set back to the original position and the acoustic screening must be attached to this set back roof structure.

The garden bed must be behind the acoustic screen to create a real buffer between the cafe deck area and our back garden.

I see absolutely no reason as to why the illegal extension of the awning should remain, it serves to purpose if over the garden bed and as I have stated it does not comply with Council guidelines, it must be removed!
