RE: DA2024/1303 - 11 / 0 Melwood Avenue FORESTVILLE NSW 2087

Dear Council members, I strongly reject the plan to demolish the Forestville RSL to make place for an oversized retirement village with a small centered RSL club nestled inside the complex. How can a club board of eight individuals arbitrarily decide what is best for the community if they don't consult them, well they can't. We love the friendly family oriented space with the bowling greens. It serves a big purpose in our community and brings people together. Retirement homes are convenient for the clubs purpose, we understand the RSL needs to stay profitable but there appears to be a lack of member consultation and subsequent consent. I'm also concerned the construction process will bring years of noise/dust and discomfort for nearby residents. Yours sincerely A. Unger
