RE: DA2021/1164 - 521 Barrenjoey Road BILGOLA BEACH NSW 2107

This development appears to be totally unsuitable for the location. The impact this will have on traffic during construction is just the beginning of several other negative impacts. Environmentally and visually this massive development will make major changes that the community have to tolerate. Wildlife and vegetation are sensitive in this area and already under danger from overdevelopment, a construction like this being approved will open the floodgates for more and destroy the peninsula.
