RE: Mod2015/0005 - 40 Kingsway DEE WHY NSW 2099

I strongly object to any modification on this site that allows more trees to be cut down. This area and the area in front of the library are the only green spaces in the centre of Dee Why. Nobody wants huge cement structures instead of the beautiful tree lined area that it is now. I think it is criminal and disgusting that you are cutting down all these trees. How can you call yourselves a Green council. You are saying you want to plant more trees yet you are destroying a lovely part of DY and the habitat of many animals. I think many people dont realize the extent of the devastation you are intending to inflict here.
I think you should reconsider your plans.
