**RE: DA2024/1171 - 2742 / 9999 Condamine Street MANLY VALE NSW 2093**

I understand Council is proposing to erect three squash courts at Kenneth St, North Manly as part of the development of facilities across the road from the current courts. As a long-standing player at the old courts I wish to commend Council in doing this. If there is any way the Council can increase the number of courts from 'like for like' that would be fantastic. Such an increase would complement the many offerings to residents in and visitors to the Manly area by providing a facility attractive for tournaments, including international ones. Increasing the number of courts is more than likely to pay for itself by generating the complex as a 'go to' focal point. Well done Council for your vision.
