RE: Mod2025/0228 - 28 Lockwood Avenue BELROSE NSW 2085

I am astounded that a request is being made to increase the size of this building on the site of the old library. Already locals struggle with parking and traffic in the vicinity and this is before the approved structure is even completed. I was horrified to see the removal of large old trees before the construction occurred and now we are being told there may be another level and even more traffic to the area.

Please include my strong contesting of a plan to increase the size of this dwelling which already has caused dismay and anger to local residents
