RE: DA2019/0123 - 80 - 82 Mona Vale Road MONA VALE NSW 2103

Almost every Sunday morning for at least 9 years, my routine trip to Frenchs Forest markets has been my main source of food for me and my family.

I buy mostly organic for several reasons: sustainability, healthier, fresher food (compared to cold-storage methods from the Big 4), supports local farmers and retailers, sense of community, minimises food waste, supports small business owners ... so many benefits.

I implore the Council to ensure this hub of community, health and wellbeing continues to be available to residents. To not make this available will have deep financial impact on the the growers and retailers, as well as the opportunity for conscious consumers to support them.
