18 November 2020

**Section 4.55(1A) Modification Application - DA2018/1289 & Mod 2020/0439 - Construction of Coastal Protection Works at 1150-1168 Pittwater Road Collaroy**

DA2018/1289 was approved by Northern Beaches Council on 10 May 2019, and Mod 2020/0439 was approved by Council on 7 October 2020. A modification to this consent is requested to extend the working hours for the project from 6:30am to 7:30pm, to enable a greater period of working at low tide. This is requested for all works, as no rock breaking and the like is proposed, just activities such as excavation of sand/boulders and piling completed by augering (and not hammering), which are not particularly noisy.

The owners most affected, the owners of the subject properties at 1150-1168 Pittwater Road Collaroy, have all agreed to these extended hours in the interest of faster progress of the works, due to the risk of the sites being more exposed to coastal erosion while the works are being undertaken.

It is also important to note that over the noise of the ocean and wind, construction noise is often almost undetectable adjacent to the beach.

Owner's consent for submission of modification and other applications for this project has been provided by all owners in a separate document<sup>1</sup>.

Should you require any additional information or clarification, please do not hesitate to contact Peter Horton via mobile on 0407 012 538, or via email at [peter@hortoncoastal.com.au](mailto:peter@hortoncoastal.com.au).

Yours faithfully  
HORTON COASTAL ENGINEERING PTY LTD

Peter Horton

Director and Principal Coastal Engineer
