

GEOTECHNICAL LETTER

32 Garden Street, North Narrabeen NSW

This letter is to confirm that AscentGeo ('Ascent') have been involved with the subject site, and the neighbouring property to the north (No. 34), during and subsequent to the storm damage and landslips that occurred during early March 2022. Please find attached our Landslip Assessment Letter, 14 March 2022.

No further geotechnical assessment is considered necessary, provided the recommendations provided in our previous geotechnical assessment (AG 21258, 25 Aug 2021) are followed, and all damaged structures and slumped material is removed from site.

If you have any questions or require any clarification, please call 9913 3179.

For and on behalf of **AscentGeo** Consulting Geotechnical Engineers,

Ben Morgan BSc, MAIG RPGeo
Managing Director | Engineering Geologist
