RE: DA2020/0442 - 231 Whale Beach Road WHALE BEACH NSW 2107

I have been going to Whale Beach for 50 Years and have seen the progressive loss of the Northern Beaches character with the developments that have been approved to houses in the area.

This submission of this multi unit development takes that lack of character to a new level. This building is in no way, in keeping with the feel of the local area. It resembles the concrete jungle of the eastern suburbs, not the relaxed peninsula environment.

The single road into the peninsula is under stress already without increasing the population density any further.

Please consider the current character of the area and ensure that any approval is in keeping with the locale.
