# BASIX<sup>™</sup>Certificate

**Building Sustainability Index** www.planningportal.nsw.gov.au/development-and-assessment/basix

## Multi Dwelling

Certificate number: 1792687M

This certificate confirms that the proposed development will meet the NSW government's requirements for sustainability, if it is built in accordance with the commitments set out below. Terms used in this certificate, or in the commitments. have the meaning given by the document entitled "BASIX Definitions" dated 10/09/2020 published by the Department. This document is available at www.planningportal.nsw.gov.au/definitions

#### Secretary

Date of issue: Wednesday, 23 April 2025

To be valid, this certificate must be submitted with a development application or lodged with a complying development certificate application within 3 months of the date of issue.

When submitting this BASIX certificate with a development application or complying development certificate application, it must be accompanied by NatHERS certificate HR-M4Z3LS-01.

## **Description of project**

The tables below describe the dwellings and common areas within the project

#### Common areas of unit building - Building2

| Common area       | Floor area (m²) | Common area       | Floor area (m²) |
|-------------------|-----------------|-------------------|-----------------|
| Lift bank (No. 1) | -               | Lift bank (No. 2) | -               |

#### Common areas of the development (non-building specific)

| Common area               | Floor area (m²) | Common area               | Floor area (m²) | Common area    | Floor area (m²) |
|---------------------------|-----------------|---------------------------|-----------------|----------------|-----------------|
| Basement 02 Carpark (B02) | 650             | Basement 01 Carpark (B01) | 636             | Services (B02) | 6               |
| Services (B01) 6          |                 | Wine Cellar (B02)         | 31              |                |                 |

## **Schedule of BASIX commitments**

1. Commitments for Residential flat buildings - Building1

(a) Buildings

(i) Materials

(b) Dwellings

(i) Water

(ii) Energy

(iii) Thermal Performance

(c) Common areas and central systems/facilities

(i) Water

(ii) Energy

2. Commitments for Residential flat buildings - Building2

(a) Buildings

(i) Materials

(b) Dwellings

(i) Water

(ii) Energy

(iii) Thermal Performance

(c) Common areas and central systems/facilities

(i) Water

(ii) Energy

3. Commitments for common areas and central systems/facilities for the development (non-building specific)

(a) Buildings 'Other'

(i) Materials

(b) Common areas and central systems/facilities

(i) Water

(ii) Energy

## Schedule of BASIX commitments

The commitments set out below regulate how the proposed development is to be carriedout. It is a condition of any development consent granted, or complying development certificate issued, for the proposed development, that BASIX commitments be complied with.

## 1. Commitments for Residential flat buildings - Building1

#### (a) Buildings

| (i) Materials   | Show on<br>DA plans | Show on CC/CDC<br>plans & specs | Certifier<br>check |
|---|---------------------|---------------------------------|--------------------|
| (a) The details of the proposed development on the Assessor Certificate must be consistent with the details shown in this BASIX<br>Certificate, including the details shown in the "Floor types", "External wall types", "Internal wall types", "Ceiling and roof types",<br>"Frames" and "Glazing" tables below.         |                     |                                 | >                  |
| (b) The applicant must show on the plans accompanying the application for a construction certificate (or complying development<br>certificate, if applicable), all specifications included in the tables below.   |                     | <b>~</b>                        |                    |
| (c) The applicant must construct the floors, walls, roof, ceiling and roof, windows, glazed doors and skylights of the development in accordance with the specifications listed in the tables below. In the case of glazing, a 5% variance from the area values listed in the "Frames" and "Glazing" tables is permitted. | ~                   | ~                               | >                  |
| (d) The applicant must show through receipts that the materials purchased for construction are consistent with the specifications listed in the below tables.   |                     |                                 | >                  |

| Floor types   |           |            |                      |  |  |  |  |

#### (b) Common areas and central systems/facilities

| (i) Water   | Show on<br>DA plans | Show on CC/CDC<br>plans & specs | Certifier<br>check |
|---|---------------------|---------------------------------|--------------------|
| (a) If, in carrying out the development, the applicant installs a showerhead, toilet, tap or clothes washer into a common area, then that item must meet the specifications listed for it in the table.   |                     | <b>&gt;</b>                     | >                  |
| (b) The applicant must install (or ensure that the development is serviced by) the alternative water supply system(s) specified in<br>the "Central systems" column of the table below. In each case, the system must be sized, be configured, and be connected, as<br>specified in the table. | >                   | >                               | >                  |
| (c) A swimming pool or spa listed in the table must not have a volume (in kLs) greater than that specified for the pool or spa in the table.  | •                   | <b>&gt;</b>                     |                    |
| (d) A pool or spa listed in the table must have a cover or shading if specified for the pool or spa in the table.   |                     | <b>v</b>                        |                    |
| (e) The applicant must install each fire sprinkler system listed in the table so that the system is configured as specified in the table.   |                     | <b>~</b>                        | ~                  |
| (f) The applicant must ensure that the central cooling system for a cooling tower is configured as specified in the table.  |                     | <b>v</b>                        | ~                  |

| Common area | Showerheads rating | Toilets rating     | Taps rating | Clothes washers rating     |
|-------------|--------------------|--------------------|-------------|----------------------------|
| All common  | no common facility | no common facility | 3 star      | no common laundry facility |
| areas       |                    |                    |             |                            |

| Central systems  | Size | Configuration   | Connection (to allow for)   |
|--|------|---|---|
| Central water tank -<br>rainwater or stormwater (No.<br>1) | 5000 | To collect run-off from at least:<br>- 40 square metres of roof area of buildings in the<br>development | <ul> <li>irrigation of 110 square metres of common landscaped<br/>area on the site</li> </ul> |

| (ii) Energy  | Show on<br>DA plans | Show on CC/CDC<br>plans & specs | Certifier<br>check |
|--|---------------------|---------------------------------|--------------------|
| (a) If, in carrying out the development, the applicant installs a ventilation system to service a common area specified in the table below, then that ventilation system must be of the type specified for that common area, and must meet the efficiency measure specified.   |                     | <b>~</b>                        | ~                  |
| (b) In carrying out the development, the applicant must install, as the "primary type of artificial lighting" for each common area specified<br>in the table below, the lighting specified for that common area. This lighting must meet the efficiency measure specified. The<br>applicant must also install a centralised lighting control system or Building Management System (BMS) for the common area,<br>where specified. |                     | ~                               | ~                  |

| (ii) Energy  | Show on<br>DA plans  | Show on CC/CDC plans & specs | Certifier<br>check |
|--|--|------------------------------|--------------------|
| (c) The applicant must install the systems and fixtures specified in the "Central energy systems" column of the table below. In each case, the system or fixture must be of the type, and meet the specifications, listed for it in the table. | <ul> <li>Image: A second s</li></ul> | <b>v</b>                     | <b>~</b>           |

|                           | Common area ventilation system    |                                      | Common area lighting                |                                   |                                 |
|---------------------------|-----------------------------------|--------------------------------------|-------------------------------------|-----------------------------------|---------------------------------|
| Common area               | Ventilation system type           | Ventilation efficiency measure       | Primary type of artificial lighting | Lighting efficiency<br>measure    | Lighting control system/<br>BMS |

|---------------------------|---------------------|---|
| Alternative energy supply | Photovoltaic system | Rated electrical output (min): 10 peak kW |
| Other                     | -                   | -   |

#### Notes

- 1. In these commitments, "applicant" means the person carrying out the development.
- 2. The applicant must identify each dwelling, building and common area listed in this certificate, on the plans accompanying any development application, and on the plans and specifications accompanying the application for a construction certificate / complying development certificate, for the proposed development, using the same identifying letter or reference as is given to that dwelling, building or common area in this certificate.
- 3. This note applies if the proposed development involves the erection of a building for both residential and non-residential purposes (or the change of use of a building for both residential and non-residential purposes). Commitments in this certificate which are specified to apply to a "common area" of a building or the development, apply only to that part of the building or development to be used for residential purposes.
- 4. If this certificate lists a central system as a commitment for a dwelling or building, and that system will also service any other dwelling or building within the development, then that system need only be installed once (even if it is separately listed as a commitment for that other dwelling or building).
- 5. If a star or other rating is specified in a commitment, this is a minimum rating.
- 6. All alternative water systems to be installed under these commitments (if any), must be installed in accordance with the requirements of all applicable regulatory authorities. NOTE: NSW Health does not recommend that stormwater, recycled water or private dam water be used to irrigate edible plants which are consumed raw, or that rainwater be used for human consumption in areas with potable water supply.

#### Legend

- 1. Commitments identified with a "V" in the "Show on DA plans" column must be shown on the plans accompanying the development application for the proposed development (if a development application is to be lodged for the proposed development).
- 2. Commitments identified with a "V" in the "Show on CC/CDC plans and specs" column must be shown in the plans and specifications accompanying the application for a construction certificate / complying development certificate for the proposed development.
- 3. Commitments identified with a "" in the "Certifier check" column must be certified by a certifying authority as having been fulfilled. (Note: a certifying authority must not issue an occupation certificate (either interim or final) for a building listed in this certificate, or for any part of such a building, unless it is satisfied that each of the commitments whose fulfillment it is required to monitor in relation to the building or part, has been fulfilled).
