**RE: DA2023/1224 62 Myoora Road TERREY HILLS NSW 2084**

I am writing to oppose your changed DA for Flower Power Terrey Hills cooyong road is getting really busy now, and I have noticed that the horses that use this street are struggling to walk without getting distressed down with the amount of traffic along the verge on cooyong road to the horse underpass under mona vale road. If they change the exit point on cooyong road opposite currong circuit, the horses wont be able to use the verge anymore Also the amount of residents including the elderly and also school children that use cooyong road for the walks and also to get to school, crossing over currong circuit, by changing the exit point will make crossing the road for them extremely difficult, as cars will be doing uturns to head back to mona vale road it wouldn't take long for a car accident or even a pedestrian to be hit Mona vale road is the perfect place for the entry and exit points.
