Proposed Plant Schedule

Potential

Botanical Name	Common Name	Potential Height Reached	Container Size
TREES			
Angophora costata	Sydney Red Gum	10-18m	100L
Araucaria columnaris (syn.A cookii)	Captain Cook's Pine	25-35m	400L
Caesalpinia ferrea	Leopard Tree	10-15m	100L
Corymbia maculata	Spotted Gum	15-25m	200L
Elaeocarpus eumundii	Eumundi Quandong	10-15m	200L
Ficus rubiginosa	Port Jackson Fig	10-20m	400L
Glochidion ferdinandi	Cheese Tree	10-15m	100L
ophostemon confertus	Brush Box	18-20m	200L
Syzygium paniculatum	Brush Cherry/Magenta Cherry	8-12m	200L
Tristaniopsis laurina 'Luscious'	Water Gum	5-8m	100L
Naterhousea floribunda "Green Avenu	Green Avenue Lilly Pilly	15-20m	200L
DALMO			
PALMS Cycas revoluta	Dwarf Sago Palm	3.5m	45L
Cycas revoluta	Dwarf Sago Palm	·····	
Howea forsteriana	Kentia Palm	13-15m	100L 200L +
Livistona australis	Cabbage Palm	15-18m	/transplante
Macrozamia communis	Burrawang	2m	45L
Rhapis excelsa	Lady Palm	3-6m	45L
SHRUBS			
Adenanthos sericeus 'Mallee Legend'	Coastal Woollybush	1.5-2m	5L
Alcantarea imperialis 'Rubra'	Imperial Bromeliad	1 - 1.5m	45L
Alpinia zerumbet / speciosa	Shell Ginger	3m	5L
Correa reflexa 'Dusky Bells'	Native Fuchsia, Common Correa	1-2m	5L
Echium fastuosum	Pride of Madeira	2-3m	5L
Gardenia jasminoides	Gardenia	1-2m	25L
Murraya paniculata	Orange Jessamine	3m	25L
Nerium oleander 'Dwarf Apricot'	Dwarf Oleander	1-2m	5L
Philodendron "Xanadu"	Dwarf Philodendron	1m	25L
Raphiolepis indica	Indian Hawthorn	2-3m	5L
Syzigium australe "Southern Form"	Southern Form Syzygium	2-3m	25L

Thysanolaena maxima		2-3m	5L
Viburnum odoratissimum	Sweet Viburnum	3-4m	5L
Nestringia fruticosa 'Aussie Box'	Dwarf Coastal Rosemary	0.8m	5L
GROUNDCOVERS/CLIMBERS	,		
Agave attenuata	Century Plant	0.5m	25L
Cissus rhombifolia	Grape Ivy	0.5m	150mm
Clivia miniata	Kaffir Lily	0.45m	5L
Hedera canariensis	lvy	0.3m	150mm
	Shore Juniper	0.3m	150mm
Juniperus conferta		0 Em	150mm
	Turf Lily	0.5m	
_iriope muscari 'Evergreen Giant'	Turf Lily Mat Rush	0.5m	150mm
Juniperus conferta _iriope muscari 'Evergreen Giant' _omandra confertifolia 'Little Con' Molineria capitulata			150mm 5L
_iriope muscari 'Evergreen Giant' _omandra confertifolia 'Little Con'	Mat Rush	0.2m	

Character Imagery

Cascading Plants

Planting on the upper roof level to provide cascading climbers and hardy trailing plants to further soften the building edges

Raised garden beds filled with hardy and low maintenance shrubs and groundcovers that provide a lush tropical character

Landscape Establishment & Maintenance

LANDSCAPE ESTABLISHMENT & MAINTENANCE

Extent & Tasks

Monitor and maintain all planting and associated landscaping works for the duration of the maintenance period. This shall generally include watering, failed plant replacements, pest and disease control, weed control and monitoring. Maintenance is to be carried out to all areas where new planting, is installed. Weeding shall extend around and in between individual plants and up to path, kerbs or other defining edges. Carry out all maintenance activities for all new garden and lawn areas as required to ensure the plants and turf become established within the maintenance period and are kept in a healthy and tidy state in accordance with best horticultural practices.

Watering

Plants are to be watered upon completion of planting and then monitored for water stress. Watering requirements will be subject to season and prevailing weather conditions. Plants that fail due to wilting and water stress shall be replaced.

Pests and Diseases

All trees are to be visually inspected for the presence of persistent and damaging insect pests or diseases at least once every 4 weeks, or upon written notification from the Contract Manager of a potential problem. The pest and / or disease and its extent and prevalence is to be identified and recorded along with the recommended control and action to be taken.

Weeding

All areas are to be visually inspected for the presence of woody and herbaceous weed species once every 4 weeks. All occurrences of weeds are to be spot sprayed using a glyphosate based herbicide no later than 7 days after being identified. Weeds are to be re-inspected 7 days after spraying and retreated if required. Weeds higher than 200mm in height shall be removed by hand before general herbicide treatment. Smaller weeds shall be allowed to wither and rot in place.

Plant Replacements

Plants that have failed due to inadequate maintenance, or implementing inappropriate handling procedures or planting operations shall be replaced. Replacements shall be undertaken within 7 days of the plant being identified as failed or unacceptably damaged. Note, severe wilting or water logging leading to death of foliage, breakage or wounding of main stem, damage to apical leaders or damage to significant second order branches shall be deemed to constitute failure.

The cost of plants that are damaged or killed by environmental factors outside the normal control such as severe storms, high winds, hail, flooding, vehicular accident, or are stolen or maliciously damaged shall be born by the Contractor if prior to Practical Completion. The Contractor is advised to take out all necessary Construction Insurance to cover all the costs associated with re-supply, delivery and replanting prior to this time. The costs of replacing damaged, stolen or maliciously damaged plants shall be covered by the Principal after Practical Completion has been granted.

Stone Paving

Character Imagery

Paving is to have a high level of finish utilising a natural stone or stone-like surface and non-slip characteristics that easily meets and matches the adjoining concrete footpaths and roads.
