RE: DA2021/1612 - 1 Clarke Street NARRABEEN NSW 2101

I live 200 metres from this section of Collaroy/Narrabeen Beach front.

I am lodging my objection to this DA due to the following grounds:

-vertical concrete seawalls have been riven to be far more damaging to beach processes than alternative coastal armouring methods such as rock revetment walls. There are examples of these concrete seawalls all over the world which have had a devastating effect on the beach. I expect after the first big storm we won't have a beach anymore. This is (was until building works) my daily walk.

secondly these walls look like a blank canvas for graffiti artists.

also there is no mention of any works in front of the South Narrabeen surf club. This plan seems incomplete
