RE: DA2020/1758 - 11 Lewis Street BALGOWLAH HEIGHTS NSW 2093

Lewis Street is an already busy street with little to no parking on a normal weekday. The primary school next door has children from 8 years old riding scooters and bikes to school. The construction needed to build this Child care centre would make it very unsafe for the kids that take themselves to school. Should the Childcare centre open, the additional car traffic around 8-9am would increase thus making it even more dangerous for school kids trying to get to school safely.

The construction noise would be considerable for the year 3 classrooms in particular, given the house is along the boundary of the school.
