RE: DA2021/1612 - 1 Clarke Street NARRABEEN NSW 2101

Whilst I understand that the beach wall has been erected in Collaroy due to erosion, I oppose the Seawall being extended to south Narrabeen. The width of the beach at South Narrabeen is not impacted by erosion and the money spent to build a wall should be saved and the focus should be on not permitting huge houses and more apartments to be built around the community. Let's focus on taking care of what we have and not building walls and impacting the beach.
