RE: Mod2017/0106 - 894 Pittwater Road DEE WHY NSW 2099

The construction site is almost directly across the road from my apartment. While I understand that any construction project will inevitably result in noise and disruption, I consider the hours of work being proposed to be intolerable. Currently I note that there have already been instances where I have heard what are likely to be large delivery vehicles before the permitted start time for delivery of materials. I am concerned that if the proposed start times are accepted, noise will begin even earlier in the morning. Also, as a full time worker, I very much value my ability to rest and relax after work and on weekends. I consider the proposed work times would significantly interfere with my quiet enjoyment of my property.
