I have heard that there is a proposal to locate a McDonalds fast food outlet on the corner of Roseberry & Kenneth in Manly Vale.

This would have to be probably the most insane proposal I have ever heard of.

Has anybody from the council ever tried to drive in this area??

It is basically grid locked all day every day.

I strongly object to this proposal, I also object to the fact that McDonalds peddle extremely unhealthy so called food, which contributes to the ill health of everyone, especially children
