**RE: DA2018/1828 - 3 Berith Street WHEELER HEIGHTS NSW 2097**

I have the need to park in Berith St each day while caring for my father who lives there. During school terms there is limited parking in Berith St due to Wheeler Hts public school drop off and pick up and people constantly need to park across driveways to enable them to collect their children. The parking has become even more congested due to the added town houses recently completed in Rose Ave and because parking in Rose Ave is already scarce, many people are using Berith St to find additional parking. There is also another development to be completed two blocks from that new build with yet more town houses. This will bring even more vehicles to an already congested street. Visibility for cars coming out of Berith St into Rose Ave is also a major concern. There is already a large school with limited street parking, town houses with inadequate car spaces and now you are planning more housing to an already over populated area. Please don't make our area revolting with over development and traffic congestion. I thought Dee Why was the trade off for that. And what a mess Dee Why is! Thank you for considering my concerns.
