**RE: DA2020/1039 - 15 Jubilee Avenue WARRIEWOOD NSW 2102**

Hi strongly believe that this proposal is beyond belief. This area is already built out and parking atrocious. The traffic is already absurd in this area, and the safety of locals especially school kids walking or riding in this area is at risk. Not to forget the noise and diesel pollution a depot would bring to the valley. Also the environmental impact a proposal like this could do to our area with 48 buses and a diesel fuel store in a valley like ours.

I am against any such proposal for this land or nearby. The valley is built up enough and we do not need more traffic or pollution in the already choking environment.
