To Whom it may Concern.

As an owner in a Grande Esplanade apartment, just across the road from Hugo's, I totally approve of their DA.

In the 12 years or so Hugo's have been down there, **no problems with noise at all.**

The only 'real' noise came from The Bavarian, but was eventually resolved through Liquor and Gaming after Grande Esplanade residents hired a Sound Engineer to report back on noise, etc.

In my opinion, Hugo's is the absolute best dining experience in Manly. The food exceptional, staff friendly and professional and just generally very well run.

Please accept their DA as extra outdoor dining would be terrific in the best location.

As you can see from the photo below, we look straight out on to Hugo's.....and there is never any noise from loud music or anything else.
