RE: DA2020/1489 - 8 Forest Road WARRIEWOOD NSW 2102

I do not wish the house to be demolished when it is a piece of our architectural heritage. The house has a number of original heritage fixtures and designs and it is terrible that it has been left to fall into disrepair. The developers need to be held responsible and accountable to their original DA which required the house to be kept and repaired. They have let the house fall into disrepair even after being warned what was happening to the house. They need to repair it as originally decided upon.
