In this Application Greys 'Assessment of Traffic and Parking Operation' 3.1 referred to a comment I made in an earlier submission and once again was taken out of context and used for their own purpose. My comment solely referred to traffic on Foley Street and had nothing to do with the bump-in time of vendors on Jubilee Ave. The horn honking referred to was MID MORNING and only on Foley St and definitely NOT at 7 am.

Originally the markets opened earlier and vendors started arriving before 6 am via the Foley St entrance to the RSL car park where there is a speed hump which made it noisy. This was solved for me with a later start and entry via Jubilee Ave so I do not have a problem with the entry/exit of vendors nor do I have a problem with the markets themselves. My only concern is the constant traffic on Foley St which has one lane each way and because of the sequence of the traffic lights on the cnr of Foley and Mona Vale Rd there is often a build up of cars which sometimes creates frustration. Perhaps the answer is to adjust the traffic lights so more than 3-4 cars can get through at one time.

Jan Bilton  
Foley St
