Hi Sharon,

Just following up on the email below and whether SES had any further comment in light of the attached Calibre memo.

I am sure SES resources are stretched in the current weather conditions, so totally understand if you need more time.

If it is of any assistance, I believe Calibre wants to ascertain whether SES' fundamental position will change upon confirmation that the evacuation route north along Boondah Road is clear of flood water up to and including the 1%AEP + climate change.

Please don't hesitate to contact me if you wish to discuss anything.

Kind regards,

Hi Sharon,

Please find attached a memo from the proponent's flood consultant (Calibre) which addresses particular matters raised in the SES preliminary referral response.

If there is any further comment SES would like to make having regard to the memo, please forward correspondence to Council at your convenience.
