Re DA2024/0815 – 3 Tobruk Ave Allambie Heights

We have reviewed the plans for alterations at 3 Tobruk Ave Allambie Heights – construction of carport and alterations to entrance.

Our bedroom is opposite the proposed carport and alterations.

Existing wall lighting is very bright and external fence lighting brightness impacts our home and sleep amenity.

We have already mentioned this to M Putica and lighting timing has been adjusted to address some of our concerns.

We request that consideration is given to external lighting so that it does not cause additional light pollution to our property.

Kind regards,

A & P Howard
