RE: Arborist Review of the Section 4.55 Amendment Plans

This letter has been prepared to confirm that Alexis Anderson of Bluegum Tree Care & Consultancy has reviewed the 4.55 Amendment Plans 981 Barrenjoey Road, Palm Beach and is satisfied that the changes will have negligible additional impact to that outlined in the Arboricultural Impact Assessment (January 2020).

The additional proposed excavation is within the same footprint as the previously approved building footprint.

The areas of building footings (outside of the existing building footprint) will affect less than 10% of the TPZ area of Tree 3. No pruning of structural roots or major woody transport roots is expected.

The retained trees are likely to tolerate the impact of the proposed works and remain viable.

Please contact me if there are any questions or if further information is required.

Yours sincerely

A handwritten signature in black ink, appearing to read "A. Anderson".
