RE: DA2020/0393 - 28 Lockwood Avenue BELROSE NSW 2085

We are a family like many others in this area enjoying a community of mainly detached family homes. We chose to settle and raise our family in this area for the safety of our children keeping the area population low is in the interest of preserving our lifestyle choice and the safety of our community. There is so much development around us and other densely populated areas, please stop multi story developments in our community.

We have 3 gyms in our small area we do not need another. We have plenty of shops there is no need or demand for more with empty shops sitting in the nearby Sorlie road. The community do not want this. This only benefits profit making property developers. There has not been enough consultation with the community on this issue. It only affects the people who live here lives, we should be consulted, considered & heard. I only see this as a thing that reduces my children's safety and destroys a way of living. Our children get to roam in this little safe community from homes with families we know to parks and open spaces, please don't turn our area into a concrete jungle where families no longer feel safe due to over population and blocks of apartments. This is a family area with family single dwelling homes. We want to keep it this way and preserve it for the next generation. There are plenty of apartment blocks in surrounding suburbs for people who need this type of accommodation.

Many thanks
Laura
