

Site Location/Project: 39B Ocean Road, Palm Beach, NSW
Prepared for: Cadence and Co Pty Ltd
Date prepared: 12 June 2020
Our Ref: 200612_39b Ocean_St
Report Type: Statement

Purpose of Statement – Addendum to Arboricultural Impact Assessment Report

This document has been prepared as an addendum an Arboricultural Impact Assessment Report (AIA) I have prepared for the site, dated 21 May 2020 - Revision C (Ref. 200521-39 Ocean-AIA).

I inspected the site in 11 June 2020 as I had been advised that one of trees in the report, numbered tree 10 (*Angophora floribunda*) and which is located in adjoining site, has been removed since I carried to my site inspection.

I can confirm that I have inspected the site and tree 10 has been removed. Therefore, any recommendations contained within my AIA report relating to tree 10 are no longer applicable.

If you have any questions in relation to this certificate feel free to contact me on the details below.

Regards,

Jack Williams
