RE: DA2019/0494 - 37 Powderworks Road NORTH NARRABEEN NSW 2101

I live on the south side of this development.

I'm concerned about the pool pump location to my bedroom. It is very close to both my bedroom window and theirs. I purchased my home with the express intentions of it not having a pool. I'm completely fine with my neighbours installing a pool. My upside neighbours have. My concern is the location of the pump. Usually pumps are utilising off peak energy, which means it will be going whilst I sleep. I can already hear my upside neighbours pool pump during the night. This one is within metres of my bedroom window.

Unless I am reading it incorrectly, the DA also includes a side fence. Fence is fine. However, according to the plans there is a drop in the line and just a 'pool' fence between our boundaries. This will mean my property is completely open to their pool. This is going to make me feel very uncomfortable in my own back yard.
