RE: DA2021/1314 - 33 Oaks Avenue DEE WHY NSW 2099

I strongly oppose the DA for the signage above the new medical centre. Living directly opposite the led lighting will cause health problems from sleep deprivation shining into the apartment all day and night. Especially as a shift worker. Also painting the facade blue will give the area a more industrial feel that is more in line with Brookvale And not what the Lighthouse has managed to establish for this now sort after area/community and it will reduce the desirability. The facade should remain in the white. In summary the signage does not fit in with the character, feel and function of the area now.
