Hello, I am writing re the proposed development application for 71 and 71A Queenscliff Road, Queenscliff.

I have seen the DA and would like to voice my opposition to the size of the project.

I am not against developers knocking down houses and putting up units, but ask that council insist the new structure conform to guidelines.

The proposal for 71-71A breaches height and setback guidelines and will further make a mockery of the fact this suburb has no resident parking scheme.
