RE: REV2021/0009 - 27 Alan Avenue SEAFORTH NSW 2092

Please find our third submission (previous submissions dated 29/01/20 & 29/07/20) regarding the development of 27 Alan Avenue, Seaforth REV2021/0009 (DA2019/1447)

Our main concern continues to be the location of the swimming pool pumps and equipment on the southern boundary of 27 Alan Avenue. We can not see that our concerns have been addressed in any of the revisions. We understand that the equipment is to be enclosed in timber that is anything but soundproof and the location of the equipment has remained the same.

Equipment that during the summer months would be on for long periods of time and would directly impact our entertaining area, where we spend most of our time all year round. Our entertaining area is located in the adjacent (north west) corner of our property. We feel the pool equipment should be suitably enclosed and be adjacent to the proposed swimming pools and dwellings so it doesn't impact adjoining neighbours.

We also have concerns regarding the large bulk and scale of the dwellings and if approved the impact to the area. The size and length of the proposed dwellings and the three storey nature of them we believe is not at all in keeping with neighbouring properties and the streetscape of the area.

We understand this proposal continues to not meet Council guidelines.

We would appreciate Council consider our concerns in making their determination.

We are happy to be contacted to discuss further as required.

Yours faithfully,

Kathryn & Adrian Whiting
